In	the	Title:	
----	-----	--------	--

Please amend the title as follows:

A METHOD AND A DEVICE FOR <u>NON-CONTACT</u> ELECTROMAGNETIC

MEASUREMENT OF THICKNESS AND ELECTRICAL CONDUCTIVITY PROPERTIES

OF OBJECTS

In the Specification:

Please amend the specification as follows:

Page 11, formula on last line:

t4bb t5bb = t16-S16bb\*(t17-t16)/(S17bb-S16bb)

Page 12, first paragraph:

The method according to the invention may, at least partly, be carried out with the aid of program codes run in a processor or in a computer, and these program codes may be stored on a computer-readable medium such as a hard disk, a diskette, a CD-ROM, other movable memory, etc. The program codes may be at least partly transmitted via a network 18, such as, for example, the internet.
